Re: 115 Amherst SE, mold inspection and testing

Ron,

I wanted to thank you for your quick response to our potential mold issue following a number of roof leaks in our building. Your cooperation in performing your inspection and testing on a Saturday is greatly appreciated. I also appreciate your quick reporting of the results.

I will not hesitate to recommend your services for any and all indoor air quality issues related to our building, or encountered on any of our future projects.

Sincerely,

Vincent Payne, Principal
